The Breeder Agrees:

That this puppy is in good health at the time of sale. The buyer will have 3 days in which to have the puppy examined by their own veterinarian. If the puppy is found to be ill by a licensed veterinarian and is to be returned due to illness, a letter from the veterinarian is required. This includes death or illness from any health condition deemed to be present prior to leaving the seller's premises (Deer Creek Goldens). Buyer shall assume any expenses associated with returning the puppy to the seller. The seller will, at the seller's discretion, refund the purchase price, return the dog to the buyer in healthy condition, OR exchange the dog for another dog of equal value. At no time and under no circumstance will the Breeder be responsible for any veterinary expenses incurred by the buyer. This puppy is sold on Limited AKC registration.

This animal is warranted against FATAL GENETIC Defects for 2 years from the date of purchase. Should this puppy be determined to be suffering from a fatal defect deemed to be hereditary (within 2 years from the date of purchase), Deer Creek Goldens of WV will replace the puppy with a puppy of the same value when one is available after notification and satisfactory written verification has been furnished to the Breeder by TWO independent veterinarians. Breeder reserves the right to request a necropsy at the buyers expense. The breeder will not be responsible for any veterinary costs at anytime. We cannot guarantee that your puppy will never develop any health problems, just as a pediatrician cannot guarantee that a child will never develop any health problems in the future; some things are just not able to be predicted. However, our parents are health tested, free of diseases, disorders, and health problems; otherwise we would not breed them. That means our puppies are less likely to develop problems. If anything does occur, you are required to inform us so we can evaluate the parents and the other puppies from that litter in an attempt to determine the cause of the ailment and to eliminate the issue from our breeding program.

Breeder does NOT GUARANTEE against COCCIDIA or GIARDIA (typically dormant single celled parasites common in puppies) or for final adult weight, color, breeding ability, show potential or against overbites, under bites, patella issues, hernias, trachea issues or for undescended testicles. Seller agrees to notify buyer if they or the vet discover any of the above problems prior to sale, if known. By initialing, you agree that you have read and understand what BREEDER does and does not guarantee for.
